Thanks, Brian.

Heather, do we still need to hold off on the applicability determination letter to Fulcrum? I have not changed the draft, so at this point it says that 40 CFR 60 Subpart AAAA is not applicable if certain conditions are met. Will this still conflict with the R10 case?

Fulcrum requested an answer on January 8 and they are hoping to hear from us by the end of April. I will be contacting them to let them know that the project was handed to me, so any update from R10 would be helpful.

Thanks,

Tünde

Tünde,

We have not had any more recent discussion regarding Fulcrum...or at least I have not been involved. I will let you know if anything comes up here, but imagine you'll hear about issues before I do.

Thanks!

Brian
